

Pre-requisite

Basic concepts of programming - <https://www.educative.io/answers/what-are-the-basic-fundamental-concepts-of-programming>

Software installation

1. Python 3.11 - <https://www.python.org/downloads/>
2. VScode or any other preferred IDE

Why Python? <https://www.geeksforgeeks.org/reasons-why-you-should-learn-python/>

The Zen of Python - <https://peps.python.org/pep-0020/>

Pre-joining training

Please read and try writing your own codes in python, following the list of items given below. A lot of material is available online for python training and you may choose to use any of those.

1. Variables
2. Constants
3. Data Types
 1. Integrers
 2. Strings (F-strings)
 3. Booleans
 4. Lists
 5. Tuples
 6. Sets
 7. Dictionaries
4. Type conversion
5. Control Flow
 1. If-else
 2. For loop
 3. While loop
 4. Break and continue
 5. Pass
 6. Loop-else
6. Functions
 1. Parameters and arguments
 2. Return
 3. Args and Kwargs
7. Error Handling
 1. Try-except
 2. Else-finally
 3. Raise
